INTRODUCTION

Ascent Future Contracting provides High Quality Contracting, Engineering, Heavy Equipment Rental, Trading and all related Support Services to all clients.

The Company is controlled by a management team with a clear focus on Quality & Safety in its field of operations, and also with a high level expertise. Our qualified and experienced personnel effectively manage the estimation, engineering planning, management, construction, safety, quality control / quality assurance and cost control of projects.

We are esteemed ourselves, being able to offer specialized areas of construction including Civil, Mechanical, and Electrical, Instrumentation, Insulation, Environmental and various other areas. In addition to our highly qualified workforce, we also have a considerable fleet of construction equipment.

Our head office is located in Khobar and also we have our Operations all over the Kingdom. The operations of the company and scope of activities have ever being expanding and diversifying. Workshops, Yards, Warehouses, Branch Offices and Employee Accommodation Facilities are under formation at various places in the Kingdom.

We look forward to have a long standing business relation with our esteemed customers with our sincere services.

WHAT WE DO

Mechanical Construction Works

Due to the fast growth of industrial infrastructure and industrial projects in the Kingdom of Saudi Arabia and high demand of the industrial support in the kingdom Ascent Future has also established a division who is capable and highly skilled in the erecting of steel structure and maintenance of all kind of the industrial projects and we have worked so far on most of the well-known industrial projects in KSA and our workforce has the ability to handle highly challenging projects to fulfil the clients need.

Civil Construction Works

We do all kind of maintenance and construction of civil projects such as industrial and commercial constructions, where our highly skilled workforce is specialized to execute the any size of concrete works and finishing works such as block work, Screed, paint, tile fixing and cladding etc.

Geotechnical and Foundation Works

Along with the civil works and industrial support works Ascent Future is also highly specialized in geotechnical works such as earth works, soil stabilization, soil improvement, soil nailing and shotcreteing, grouting, anchors, micro piling, sheet piling, berlin wall system, secant pile, bored pile, pile testing, dewatering, diaphragm wall water leakage solutions and pile treatment for all size of the projects.

HEALTH, SAFETY & ENVIRONMENTAL POLICY

The business success of **Ascent Future** depends on our ability to continually improve the quality of our services and products while protecting people and the environment. Emphasis must be placed on ensuring human health, operational safety, environmental protection, quality enhancement, and community goodwill. This commitment is in the best interests of our customers, our employees and contractors, and the communities in which we live and work.

Ascent Future requires the active commitment to, and accountability for, HSE from all employees and contractors. Line management has a leadership role in the communication and implementation of, and ensuring compliance with, HSE policies and standards. We are committed to

- Protect, and strive for improvement of, the health, safety and security of our people at all times;
- Eliminate Quality non-conformances and HSE accidents;
- Meet specified customer requirements and ensure continuous customer satisfaction;
- Set Quality & HSE performance objectives, measure results, assess and continually improve processes, services and product quality, through the use of an effective management system;
- Plan for, respond to and recover from any emergency, crisis and business disruption;
- Minimize our impact on the environment through pollution prevention, reduction of natural resource consumption and emissions, and the reduction and recycling of waste;
- Apply our technical skills to all HSE aspects in the design and engineering of our services and products;
- Communicate openly with stakeholders and ensure an understanding of our HSE policies, standards, programs and performance. Reward outstanding HSE performance;
- Improve our performance on issues relevant to our stakeholders that are of global concern and on which we can have an impact, and share with them our knowledge of successful HSE programs and initiatives.

This Policy shall be regularly reviewed to ensure ongoing suitability. The commitments listed are in addition to our basic obligation to comply with standards, as well as all applicable laws and regulations where we operate.

QUALITY POLICY

It is the policy of **Ascent Future** to maintain a quality system designed to meet the needs and expectations of customers, requirements and to adopt and implement the Quality principle of 'Right First Time' during the execution of all projects.

We are committed to rigorous implementation of our quality management system through the establishment and ongoing review of specific measurable quality objectives, development of bespoke quality plans unique to each project and the involvement of staff in meeting these objectives.

The **Ascent Future** Construction business management system manual sets out the organisation and arrangement of the groups management systems.

The business management system contains all the procedures and associated documentation to manage and control our business and is available to all staff.

The aim of our quality management system is to ensure that:

- We deliver a quality service to maintain excellent customer relations
- Customer satisfaction remains inherent to our business
- Our customer's requirements have been fully understood and met
- All work is carried out consistently to a defined standard
- We have the skills and resources to fulfil our customer requirements
- Our staff are fully trained and involved in quality improvement
- We strive to continuously improve our systems and procedures
- We only use services that meet our own quality assurance standards
- A professional approach to customer interface is maintained at all times
- Any complaints are dealt with efficiently and within an acceptable time period

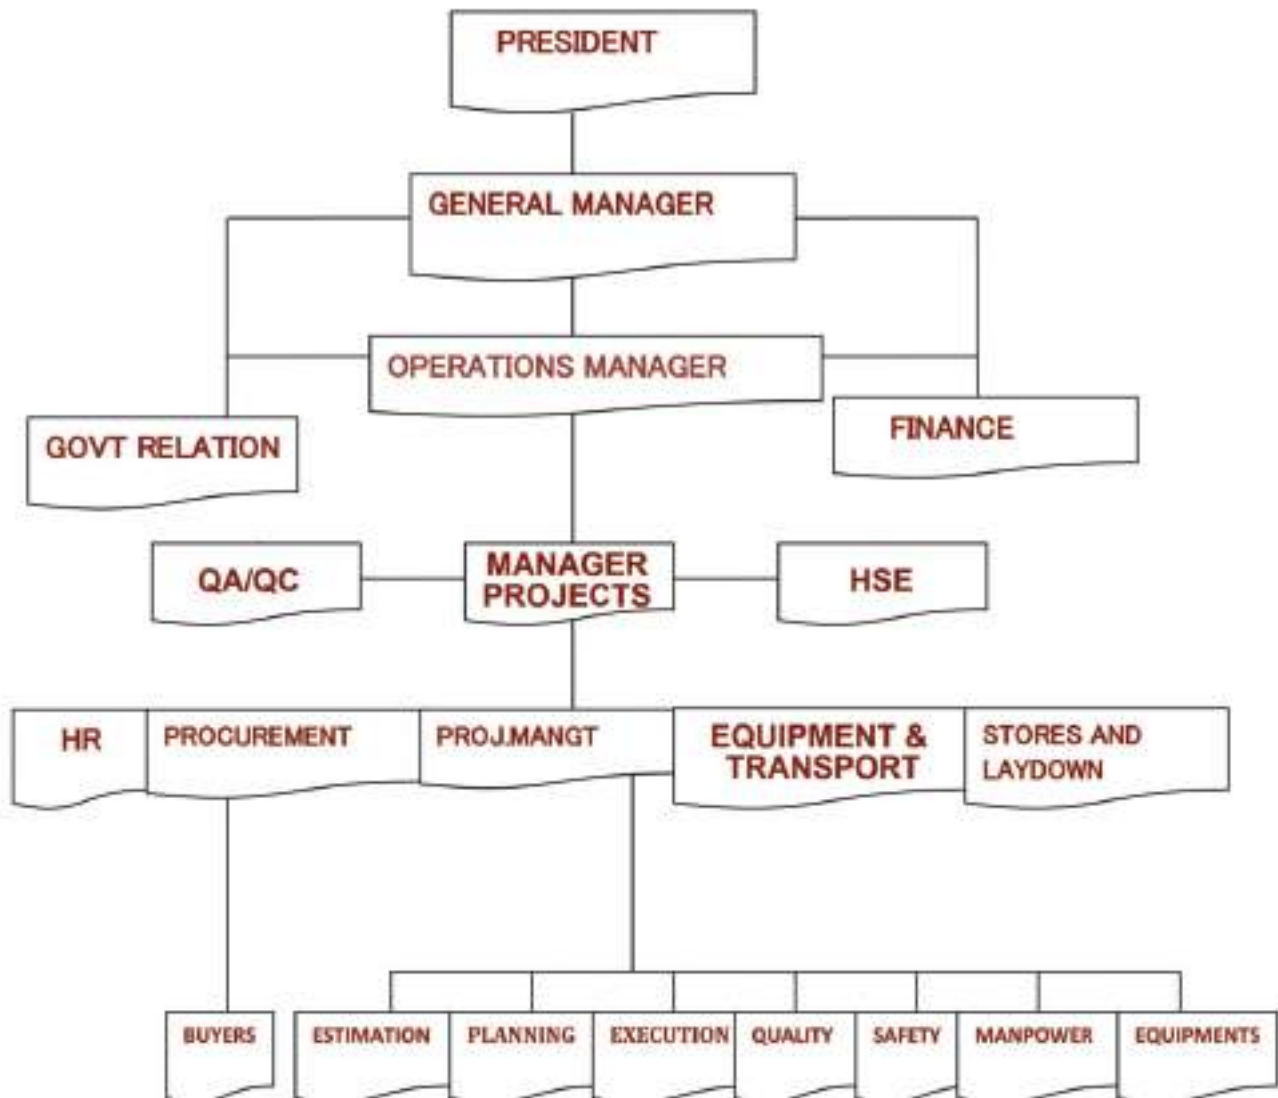

Ascent Future recognises the importance that the quality of our service has to the future of our business.

Quality is a degree of excellence, which is ever changing. Every member of staff is involved in managing how we can improve today, tomorrow and long into the future.

From the smallest procedure to the largest contract, quality is our passport to customer satisfaction and to our future business.
